

ASG701W Windy Panel Safety Barricade

aluminum rails
At only 15 pounds, the sturdy, yet lightweight aluminum rails offers easy portability, and folds together for easy storage.

D-shaped locking pins
lock panel straight or at 90 degrees

windy panel
Custom laser cut holes allow ample air flow to pass through the panels, maintaining barricade stability in harsher weather conditions. Each panel has exceptional strength and tear resistance thanks to an internally woven polyester 6 by 6 strand weave.

text and graphics
Enhance your barricade with standard or custom graphics, text, or logos. Our in house professional designers can help you achieve exactly what you want others to see on your barricade.

standard fastening system
Equipped with suction cups for barricade stability. Opt for the Barri-cuda grips, and you will have a much more effective and reliable way to fasten your barricade.

Optional Features

BILINGUAL TEXT
Your choice of English and French, or English and Spanish text on any panel.

PANEL CLAMPS
Added between panels to allow locking at various angles. Ensure a perfect fit.

BARRI-CUDA GRIPS
Wide mouth and ratcheting locking system allow fastening almost anywhere.

Each barricade features a wide variety of boldly displayed warning symbols and safety messages to alert the public and protect workers. Or add your own logo or graphics. The 3/4" aluminum frame with non-marking rubber feet, is lightweight for easy handling, and tough for a long service life. 16-oz. high visibility washable vinyl panels resist flame, wear, spills, rot, mildew. Best of all, our barricades require no tools to assemble. All barricades come supplied with a two-way locking pin system that locks panels at 180 degrees or 90 degrees to keep work zone fully protected, and Large 3-1/4" dia. suction cups at both ends keep barricade fastened to wall jambs or to escalator ballustrade.
